DAY 01 • STUDENT ACTIVITIES

# Program Orientation and Cybersecurity Foundations

*The qualification, the role of a Level I cyber threat monitor, the CIA triad, ethics and Philippine cyber laws*

| | |
|---|---|
| **Qualification** | Cyber Threat Monitoring Level I |
| **Unit of Competency** | Introduction to CS-ICT251101 and CS-ICT251102 (with Basic Competencies: workplace communication, OSH) |
| **Coverage** | Qualification overview; competency-based training (CBT) process; cybersecurity fundamentals; legal and ethical responsibilities |
| **Duration** | 8 hours (1 training day) |

| Trainee Name | Batch / Section | Date |
|---|---|---|
| | | |

## Activities Overview

| No. | Activity | Type | Time | Assets Needed |
|---|---|---|---|---|
| 1.1 | CIA Triad Scenario Analysis | Individual | 45 min | None |
| 1.2 | Threat, Vulnerability, Risk — Sort It Out | Pair | 30 min | None |
| 1.3 | SOC Role Mapping and Code of Conduct | Group (4–5) | 60 min | None |
| 1.4 | Lab Workstation Readiness and OSH Check | Individual | 30 min | None |

**CAUTION — Lab Rules**

► Work only on the lab machines, virtual machines and files provided by your trainer.
► Never scan, probe or test any system outside the authorized training network.
► Treat all sample logs and data as confidential, as if they belonged to a real client.

# Activity 1.1 — CIA Triad Scenario Analysis

| | |
|---|---|
| **Type** | Individual |
| **Time Allotment** | 45 min |
| **Objective** | Classify security situations according to the CIA principle that is violated. |
| **Assets / Materials** | None (worksheet only) |

## Instructions

1. Read each scenario in the table below.
2. Identify which CIA principle is MOST affected (C, I or A).
3. Write a one-sentence justification.
4. Suggest one control that could have prevented it.

## Work Space

| No. | Scenario | C / I / A | Justification | Preventive Control |
|---|---|---|---|---|
| 1 | A BPO agent copies customer credit card numbers to a USB drive. | | | |
| 2 | A school's enrollment portal is down for two days due to a flood of fake traffic. | | | |
| 3 | Someone modifies the grades in a student information system. | | | |
| 4 | An e-wallet user's password is stolen through a fake login page. | | | |
| 5 | Ransomware encrypts the files of a municipal treasurer's office. | | | |
| 6 | An attacker changes the price of items in an online store's database. | | | |

## Deliverable

Completed scenario table, ready for class discussion.

## Performance Criteria (Trainer Use)

| Criteria | Yes | No |
|---|---|---|
| Correctly identified the CIA principle in at least 5 of 6 scenarios | ☐ | ☐ |
| Justifications are clear and logical | ☐ | ☐ |
| Preventive controls are appropriate | ☐ | ☐ |

# Activity 1.2 — Threat, Vulnerability, Risk — Sort It Out

| | |
|---|---|
| **Type** | Pair |
| **Time Allotment** | 30 min |
| **Objective** | Differentiate assets, vulnerabilities, threats, events, alerts and incidents. |
| **Assets / Materials** | None (worksheet only) |

## Instructions

1. With your partner, classify each item as Asset, Vulnerability, Threat, Event, Alert or Incident.
2. Discuss any item you disagree on and agree on a final answer.

## Work Space

| Item | Classification |
|---|---|
| Payroll database server | |
| Default "admin/admin" password on a router | |
| Phishing campaign targeting banks | |
| Antivirus notification: "Trojan detected in Downloads folder" | |
| User logged in at 8:02 AM | |
| Confirmed data leak of 5,000 customer records | |
| Outdated web server software | |
| Disgruntled former employee | |

## Deliverable

Completed classification table.

## Performance Criteria (Trainer Use)

| Criteria | Yes | No |
|---|---|---|
| At least 6 of 8 items correctly classified | ☐ | ☐ |
| Can explain the difference between an alert and an incident | ☐ | ☐ |

# Activity 1.3 — SOC Role Mapping and Code of Conduct

| | |
|---|---|
| **Type** | Group (4–5) |
| **Time Allotment** | 60 min |
| **Objective** | Describe Level I SOC tasks and the legal/ethical boundaries of the role. |
| **Assets / Materials** | None (worksheet only) |

## Instructions

1. As a group, list at least 8 tasks a Level I analyst performs in one shift (use the handout).
2. For each task, identify whether it falls under CS-ICT251101 or CS-ICT251102.
3. Write a 5-point "SOC Team Code of Conduct" for your group, referring to RA 10175 and RA 10173.
4. Present your output to the class in 5 minutes.

## Work Space

| Shift Task | Unit (251101 / 251102) | Element |
|---|---|---|
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |

### Our SOC Team Code of Conduct

## Deliverable

Task map and Code of Conduct, presented to the class.

## Performance Criteria (Trainer Use)

| Criteria | Yes | No |
|---|---|---|
| At least 8 correct Level I tasks listed | ☐ | ☐ |
| Tasks correctly mapped to unit and element | ☐ | ☐ |
| Code of conduct references privacy and authorization | ☐ | ☐ |
| Presentation is clear and within time | ☐ | ☐ |

# Activity 1.4 — Lab Workstation Readiness and OSH Check

| | |
|---|---|
| **Type** | Individual |
| **Time Allotment** | 30 min |
| **Objective** | Prepare a safe and functional workstation for the 15-day lab. |
| **Assets / Materials** | None (worksheet only) |

## Instructions

1. Log in to your assigned lab workstation using the credentials given by the trainer.
2. Complete the readiness checklist below.
3. Report any issue to your trainer before the end of the day.

## Work Space

| ✓ | Readiness Item | Remarks |
|---|---|---|
| ☐ | I can join the class Google Meet with my registered name; microphone, camera and screen sharing work | |
| ☐ | My internet connection is stable enough for a 3–4 hour live session | |
| ☐ | I downloaded the Day 1 folder and can open the .docx/.pdf files | |
| ☐ | Workstation powers on and I can log in | |
| ☐ | Monitor at eye level, chair adjusted, cables safely routed | |
| ☐ | Microsoft Defender / antivirus is visible in the system tray | |
| ☐ | Virtualization software (e.g., VirtualBox) opens | |
| ☐ | Linux lab VM starts and I can log in | |
| ☐ | I know where the emergency exits and fire extinguisher are | |
| ☐ | I signed the lab Acceptable Use and Confidentiality Agreement | |

## Deliverable

Signed readiness checklist.

## Performance Criteria (Trainer Use)

| Criteria | Yes | No |
|---|---|---|
| All checklist items completed or issues reported | ☐ | ☐ |
| Observed safe workstation setup | ☐ | ☐ |

# Self-Check

## A. Multiple Choice

Encircle the letter of the best answer.

1. Which CIA principle is violated when a website is unavailable due to a DDoS attack?
    a) a. Confidentiality
    b) b. Integrity
    c) c. Availability
    d) d. Authentication
2. Which of the following is a core unit of Cyber Threat Monitoring Level I?
    a) a. Apply quality standards
    b) b. Monitor and report cyber threats
    c) c. Work with others
    d) d. Perform computer operations
3. A weakness in a system that can be exploited is called a:
    a) a. Threat
    b) b. Risk
    c) c. Vulnerability
    d) d. Incident
4. Which law penalizes illegal access to computer systems in the Philippines?
    a) a. RA 10173
    b) b. RA 10175
    c) c. RA 7796
    d) d. RA 9184
5. The tier that receives and triages alerts first is:
    a) a. Tier 1
    b) b. Tier 2
    c) c. Tier 3
    d) d. CISO

## B. True or False

Write TRUE if the statement is correct, FALSE if it is not.

| No. | Statement | Answer |
|---|---|---|
| 1 | An alert is always a confirmed incident. | |
| 2 | You may scan any public website as long as you are only practicing. | |
| 3 | Personal data seen in logs must be protected under the Data Privacy Act. | |
| 4 | Availability means only authorized people can see the data. | |

## C. Short Answer

**1.** In your own words, what is the main job of a Cyber Threat Monitoring Level I worker?

**2.** Why is written authorization needed before scanning a system?

## Reflection

What was the most important thing you learned today, and how will you apply it in a Security Operations Center?

### Trainer Sign-off

| Overall Result | Trainer Remarks | Trainer Signature / Date |
|---|---|---|
| ☐ Competent | | |
| ☐ Not Yet Competent | | |
